

TRRP Training: 2017 Program

Who & What:

Texas Risk Reduction Program regulations (TRRP; 30 TAC 350) establish consistent **risk-based protocols** for evaluation and response to **soil, groundwater, or surface water** contamination associated with environmental releases of hazardous wastes or substances.

Presented by GSI Environmental Inc., this popular and informative training series is a must for **professionals who need a working understanding of TRRP and those needing to stay up-to-date** with the latest TCEQ TRRP guidance and policies.

TRRP Rule Step-By-Step (2 Days): Provides an overview of the TRRP framework and step-by-step training on site evaluation and remediation procedures established under the TRRP rule.

TRRP Guidance & Policy (1 Day): Provides an overview of the key guidance and policies covering affected property assessments, protective concentration limits (PCL) and response actions. Presents strategies for efficient project management in compliance with TRRP, and explains the various report forms adopted by TCEQ.
